## **EMPLOYEE EMPOWERMENT WORKSHOPS**

Let us develop and present an Employee Workshop to bring excitement and fun back into your practice.

VetAdvise.com has developed an interactive employee workshop which we will fine tune to the special needs and requirements of your practice. We will empower and rejuvenate overall staff enthusiasm through the creation of a long term practice Vision that all can identify with. We will create an Employee Mission Statement that will serve as your Team's mandate in which to operate.

We individually tailor your four hour workshop to take place outside the clinic, during which we talk, plan projects and above all come alive with excitement for the future. The workshop is designed to foster open and free discussion related to the work environment and in turn find commonality for all. We work with the new empowered team members to find fun and exciting ways to improve the clinic overall which just naturally leads to increasing revenues. The workshop develops attainable "Action Lists". We work with you and your team to ensure the excitement continues and changes are implemented.

From an ownership point of view, let us organize the whole affair, you just show and participate as any other employee. We can make all the arrangements including invitations to the staff, so that there is no additional administration for you to do.

As each workshop is tailored to meet each individual clinic's requirements, we invite you to call VetAdvise.Com to arrange an appointment to discuss the details and in turn provide you a final quotation.
